"bringing renewable
& efficient alternatives
to home environments"

BREATHE Systems® Air to Water AW28L is a new state-of-the-art water generating machine which takes moisture out of thin air and turns it into pure drinking water.

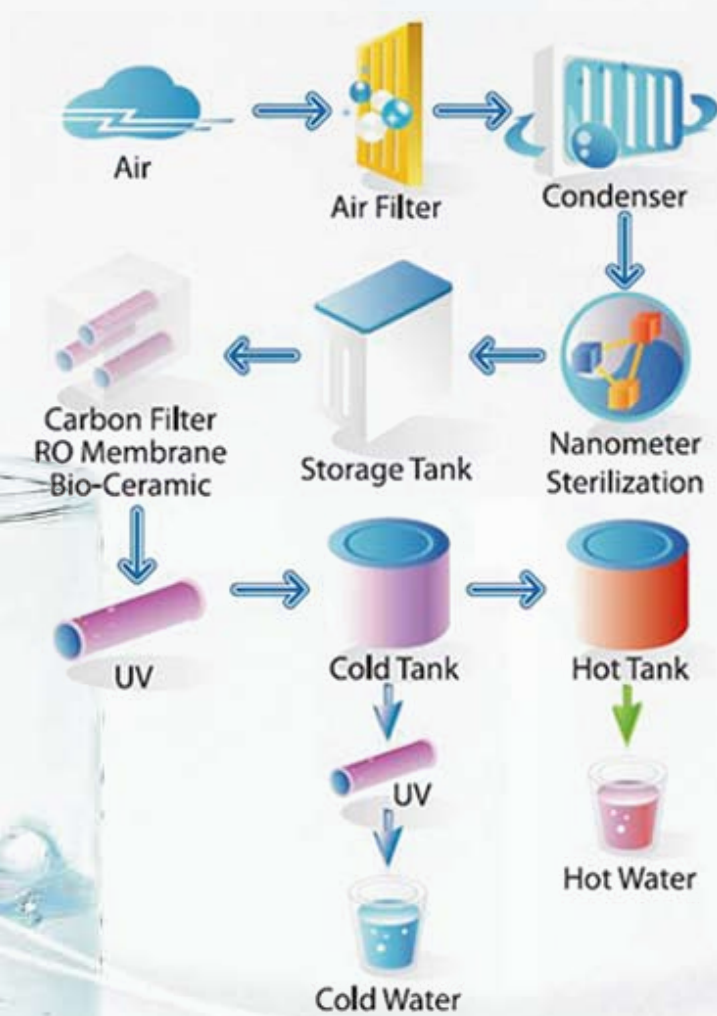

The multi-stage filtration system ensures the purest drinking water free of chemicals using "Reverse Osmosis" and "Ultra-Violet" filters, while the "Electro-static Anti-bacteria & Anti-fungus" filter is cleaning the air in your home/office.

It can produce up to 28 litres of water in a 24-hour period and has the potential to store up 20 litres.

The system is especially suited for humid regions of the world and operates indoors.

The system has uses in many environments, e.g.:

- * Residences
- * Offices
- * Schools
- * Hotels
- * Government
- * Hospitals
- * Yachts
- * Restaurants
- * Fitness Clubs
- * Humanitarian Endeavors

Model	BSS-AW28L
Voltage	AC 115V/220V
Frequency:	50Hz/60Hz
Operation Wattage:	495W
Heating Wattage:	500W
Refrigerant Type:	R22/R407c
Production Capacity:	28L/day
(30°C, 80% humidity)	
Storage Capacity:	12L
Temperature Range:	15°C~35°C
Humidity Range:	35%~95%
Size (cm):	39x39.5x100
Net Weight:	41.4kg

7-stage Filtration/Sterilization Including Reverse Osmosis Membrane
Stainless Steel UV (Philips)
Food-class 304 Stainless Steel Water Tank
VFD Digital Display (SAMSUNG)
Compressor Cooling (LG)
Digital Panel
